Q3 2021 Results and 2022-2024 Strategic Plan

November 11, 2021

Forward Looking Statement

This presentation may contain forward-looking statements that are subject to risks and uncertainties, including those pertaining to the anticipated benefits to be realized from the proposals described herein. Forward-looking statements may include, in particular, statements about future events, future financial performance, plans, strategies, expectations, prospects, competitive environment, regulation, supply and demand. Esprinet has based these forward-looking statements on its view and assumptions with respect to future events and financial performance. Actual financial performance could differ materially from that projected in the forward-looking statements due to the inherent uncertainty of estimates, forecasts and projections, and financial performance may be better or worse than anticipated. Given these uncertainties, readers should not put undue reliance on any forward-looking statements. The information contained in this presentation is subject to change without notice and Esprinet does not undertake any duty to update the forward-looking statements, and the estimates and the assumptions associated with them, except to the extent required by applicable laws and regulations.

Executive Summary

Q3 2021 RESULTS

The ROCE Driven Strategy keeps inspiring the operational and financial management

PROFITABILITY INDICATORS

- 9M 2021 P&L performance still growing compared to last year, despite a slowdown in the third quarter:
 - I. Sales up +9% yoy to 3,211 M€**
 - Q3 2021 sales of 974 M€ (-13% yoy)
 - Q2 2021 sales of 1,071 M€ (+16% yoy)
 - Q1 2021 sales of 1,166 M€ (+28% yoy)
 - II. EBITDA Adjusted up +39% to 57.9 M€**
Drivers:
 - Organic growth: +11.0 M€ (+26% yoy);
 - M&A: 5.3 M€
- ESPRINET recorded growth almost **in line with the market** (9%) in the three geographic areas in which it operates
Italy +7%, Spain +7%, Portugal +80%
- Gross profit:** with a **growth of 29% it stood at 5.16%**, (compared to 4.35% of 9M 20) with growths in almost all product lines also thanks to the efforts in customer satisfaction improvement

FINANCIAL STRUCTURE

- Cash Cycle** at **13 days**, +5 days compared to Q3 20 (+4 days compared to Q2 21)
- Net Financial Position** as of September 30, 2021 negative for 200.8 M€
 - down compared to June 30, 2021 (negative for 104.9 M€) essentially due to changes in the cash conversion cycle;
 - down compared to September 30, 2020 (negative for 14.5 M€): main drivers being treasury shares buy-back, extraordinary dividend payment, the disbursements for the acquisitions made (GTI Group, Dacom S.p.A. and idMAINT Group) and the non-repeatable favorable mismatch between DPO and DSO following the Covid-19 pandemic
- ROCE** at **17.6%** mainly due to increased operating profitability

Sales Evolution 9M 2021

9M 2021: 3,210.8 M€ (+9% vs 2,959.1 M€ in 9M 2020)

⁽¹⁾ Including the amount due within 1 year

⁽²⁾ Net financial debt pre IFRS 16

Working Capital Metrics 4-qtr average

Idays (Inventory Days): 4-qtr average of (quarter-end Inventory / quarterly Sales * 90)

DSO (Days of Sales Outstanding): 4-qtr average of (quarter-end Trade Receivables / quarterly Sales * 90)

DPO (Days of Purchases Outstanding): 4-qtr average of (quarter-end Trade Payables / quarterly Cost of Sales * 90)

Working Capital Metrics quarter-end

Idays (Inventory Days): $\text{quarter-end Inventory} / \text{quarterly Sales} * 90$

DSO (Days of Sales Outstanding): $\text{quarter-end Trade Receivables} / \text{quarterly Sales} * 90$

DPO (Days of Purchases Outstanding): $\text{quarter-end Trade Payables} / \text{quarterly Cost of Sales} * 90$

ROCE evolution

Average Capital Employed last 5 quarters: equal to the average of “Loans” at the closing date of the period and at the four previous quarterly closing dates

NOPAT Adj last 4 quarters: equal to the sum of the EBIT of the last four quarters less adjusted taxes.

ROCE: NOPAT Adj last 4 quarters / Average Capital Employed last 5 quarters

GUIDANCE 2021

- ❑ In October and early November, the Group recorded **orders from customers significantly above budget and 2020 levels**
- ❑ We continue to face **serious difficulties in goods supply**, especially on some "consumer" product categories such as low-end PCs or smartphones
- ❑ **The levels of Gross Profit Margins remain very positive and so does the SG&A discipline**
- ❑ At the end of September, we experienced a higher-than-expected level of stock due to the delayed delivery of products by suppliers eventually sold in early October.
We are experiencing **an improvement in the inventory turnover index in Q4** and therefore we expect **a good performance of both working capital and net financial debt at the end of the year**
- ❑ Supported by the exceptional level of orders from customers and in light of the information obtained from vendors on delivery forecasts, notwithstanding a reasonable level of caution due to the unreliability of shipping dates from suppliers, **the Group is raising the profitability estimates for 2021 with an expected Adj. Ebitda higher than 83 million euros, assuming at the same time overall a revenue volume higher than 4.6 billion euros**

THE NEW JOURNEY TO VALUE

OUR NEW JOURNEY TO VALUE IS STRONGLY ROOTED IN OUR ESG PURPOSE

GROWTH AND INNOVATION DELIVERED THROUGH A **SUSTAINABLE AND INTEGRATED APPROACH** TO BUSINESS

ETHICAL MOTIVATION

ESG purposes are consistent with the value system of the Board of Directors and the management team

BUSINESS OPPORTUNITY

There are strong market opportunities on "Environmentally Friendly" product lines such as electric mobility or within some of the NextGenEU funded projects

INCENTIVE FOR INNOVATION

Doing business with an ESG commitment is more complex but stems innovation and in the medium term offers the possibility of generating more value

ACCESS TO A NEW FINANCE

There are new categories of investors or lenders that require a strong ESG strategy

REDUCTION OF RISK PROFILE

In the future it is very likely that governments, or even worse consumers, will punish the companies with weak ESG strategies

The New Journey to Value ...

AFTER 20 YEARS FROM THE BIRTH OF ESPRINET, **THE GROUP LAUNCHES A STRUCTURAL CHANGE OF THE BUSINESS MODEL** WITH THE AIM IN THE NEXT DECADE OF ADDING TO THE DISTRIBUTION BUSINESS A NEW «**FULL SERVICE PROVIDER**» MODEL WITH SIGNIFICANTLY **HIGHER ADDED VALUE** THAN THE TRADITIONAL ONE

THE ROCE DRIVEN STRATEGY

BEING CAPITAL EMPLOYED OPTIMIZATION A PREREQUISITE, **THE FOCUS IS ON PROFITABILITY IMPROVEMENT**

EVOLVING TO VALUE-ADD DISTRIBUTION	ENTERING THE RENTING SPACE
<ul style="list-style-type: none">• Customer satisfaction: more differentiation and margins• Product mix: focus on Advanced Solutions and own brands<ul style="list-style-type: none">• Exploiting the Cloud: margins and recurring sales• Providing more marketing services to vendors & resellers	<ul style="list-style-type: none">• Leveraging a global cross-industry macro trend• Getting a bigger portion of the value in the IT value chain<ul style="list-style-type: none">• Drawing new competition boundaries• Resilient model
CAPITAL EMPLOYED CONTROL	
<ul style="list-style-type: none">• Cash Conversion Cycle < 18 gg days to provide financial flexibility to fund:<ul style="list-style-type: none">• Generous dividend policy<ul style="list-style-type: none">• Organic growth• M&A	

Strategic Plan 2022/24: KPIs Evolution

2022-2024 SALES UP TO 5.6 B€ and ADJ. EBITDA UP TO 125 M€

- A **business model revolution** moving into a much higher margin space paving the way, giving the intrinsic structure of the rental program, to **future massive profitability improvements**
- **Target 2024: increase by roughly 50% our Adj. EBITDA to more than 125 M€ (CAGR 15%)**
- Capital employed optimization a prerequisite: **aiming at keeping the Cash Cycle below 18 days**
- **Solid cash generation and net financial position** to support a generous dividend policy and new acquisitions

^(*) Transacted volumes of FY 2024: revenues are booked as part of the 5.6 M€ expected in the same year

THE BACKDROP

WHAT WE EXPECT FOR THE FUTURE OF THE ICT INDUSTRY

THE COVID-19 OUTBREAK IS AFFECTING AND CHANGING THE DAILY LIVES OF MILLIONS OF PEOPLE AND THE WORLD'S ECONOMIES
A SCENARIO WITH A RICH VARIETY OF OPPORTUNITIES OPENS UP FOR THE ICT SECTOR

MACROECONOMIC FORECAST

The improvement in the health situation is restarting the world's economies with strong macroeconomic growth ahead

ICT INDUSTRY

In the long run the ICT industry might be one of the few sectors emerging stronger than pre-Covid fueled by continuous innovation and a newly perceived key role in everybody's life

NEXTGenEU, RECOVERY AND RESILIENCE PLANS

Great expectations are linked to the benefits that the National Recovery and Resilience Plans should bring to the ICT Industry as well

AND FOR THE DISTRIBUTOR?

In a changing context, distributors are evolving their business model embracing the new opportunities in Cloud distribution, digital marketing and advanced logistics

A favorable moment that should not be wasted

THE IMPROVING HEALTH SITUATION IS SETTING THE GLOBAL ECONOMIES BACK IN MOTION. THE NEAR-TERM OUTLOOK FOR **THE EUROPEAN ECONOMY LOOKS BRIGHTER THAN ANYTIME IN THE LAST DECADE**^(*)

Overview of the GDP Outlook Projections^(*)

Short term headwinds in the supply chain and inflation could affect the economy. Nevertheless, we will soon find ourselves in a fully connected society where **digital technology will be a key factor for socio-economic development**

^(*) Source: IMF, World Economic Outlook, October 2021

THE PANDEMIC HAS BROUGHT ICT TO THE FOREFRONT AS **A CRITICAL ENABLER OF EVERYDAY LIFE AND BUSINESS CONTINUITY**. DIGITAL WORKFLOWS, ROBOTS, AUTOMATION ARE NO LONGER GOALS, THEY ARE REQUIREMENTS

We are already witnessing the acceleration of digital processes, so years of innovation have been reduced to months which is why the digital market has withstood the crisis better than the economy as a whole

The analysis of digitization data confirms **the progressive alignment of Italian and Spanish companies to European ones**

Percentage of the ICT sector on GDP^(*)

At global level, direct digital transformation investments accelerate to 16.5% CAGR 2022-2024, up from 15.4% CAGR 2019-2024, becoming 55% of all ICT investment by the end of 2024^()*

^(*) Source: Eurostat, data referred to 2018

^(*) Source: IDC

A GOLDEN OPPORTUNITY FOR INVESTMENTS IN DIGITAL TRANSFORMATION: THE IMPLEMENTATION OF THE **RECOVERY AND RESILIENCE PLANS** IS SET TO BE ONE OF THE LEADING GROWTH DRIVERS IN THE ICT SECTOR

The Recovery measures will bring a further and robust stimulus to the European economies. An additional boost to the ICT sector will be provided by the massive amount of **investments contained in the first mission** (digitalisation)

RRF resources allocated to the digital transition 2021-2026

17.6 B€ cumulated theoretical opportunity for southern Europe distributors
An average of 2.9 B€/year of potential additional volumes

(*) Potential end user spending passed through distribution, net of IT service spending estimated at 50% of total end user spending and considering a weight of distribution in the ICT supply chain of 60%

DISTRIBUTORS WILL REMAIN AT CENTRE STAGE OF FUTURE VENDOR GO-TO-MARKET STRATEGY

Technology wholesaling continues to be the **fastest growing go-to-market strategy** for tech manufacturers looking to increase efficiency

The complexity and acceleration of the **multicloud solutions adoption** means above all the creation of **efficient cloud provisioning platforms** that only distributors can provide

The role of **distributors in buffering stock** will be increasingly **central and crucial** as clearly highlighted by recent supply chain issues

The Subscription Economy

Riding on two **global and cross-industry macrorends: Subscription Economy & Green Transition**

The Subscription Economy addresses the macro theme of consumption against ownership, converting **CAPEX into OPEX**

The Green Transition advocates for **recycling and reuse of end-of-life products**, which can be enabled by a rental agreement where the end-of-life product goes back to the original seller being made available for refurbishing and resale, effectively reducing e-waste generation

Multiple industries are moving to rental: car leasing, music & TV streaming services, renting furniture (i.e. Muji or IKEA rental programs), not to mention Regus and similar shared and rented office spaces

The opportunity is massive for the ICT industry. As an example, the Italian association of leasing companies (Assilea) states that 18% of all kind of industrial goods are leased or rented

Market Trends & Impact on Esprinet Strategy

	MARKET TRENDS	IMPACT ON ESPRINET STRATEGY	TOP LINE	PROFITABILITY
1	Macroeconomic forecast	While paying particular attention to short-term headwinds in the supply chain, we operate in the three EU Member States with the highest growth expectations of GDP in the coming years		
2	ICT spending & GDP	We operate in the three EU Member States with the lowest ratio of ICT spending on GDP. Digitalization is now a prerequisite for competitiveness and governments are pushing hard to close this gap		
3	Next Geni EU & local plans	With this unrepeatable tailwind, one of the main growth drivers in the ICT sector of all time, we will have to pinpoint all the opportunities of digital enablers and invest with our customers in the digital transformation		
4	Future of distribution	The evolution of distribution will lead us to exploit cloud platforms and the sale of added value products in an increasingly efficient and profitable way		

ESPRINET 2024

Key Strategic Priorities 2022/24: Evolving to value-add distribution

PROFIT GOAL 01: EVOLVING TO VALUE-ADD DISTRIBUTION

RATIONALE

Seize all opportunities in the market and accelerate the evolution of the operating model to value-add distribution

GDP Outlook and Government Stimulus

South EU Countries with highest GDP growth expectations.
An estimated 2.9 B€/year distribution business for the next six years in our geographies

Improving traditional distribution services

Provide new information and digital enabling service to resellers and vendors

Customer Satisfaction Program

Superior customer experience being the key differentiator and profit enhancer

Product Mix

Investments in high margin product lines: advanced solutions and own brands (Nilox and Celly)

Exploring the Cloud

Improve technology platform, orchestrate and enable ecosystems to enrich the offering and support the partner in all stages of the journey

KPI

Adj. EBITDA evolution

Key Strategic Priorities 2022/24: Evolving to value-add distribution

PROFIT GOAL 01: EVOLVING TO VALUE-ADD DISTRIBUTION

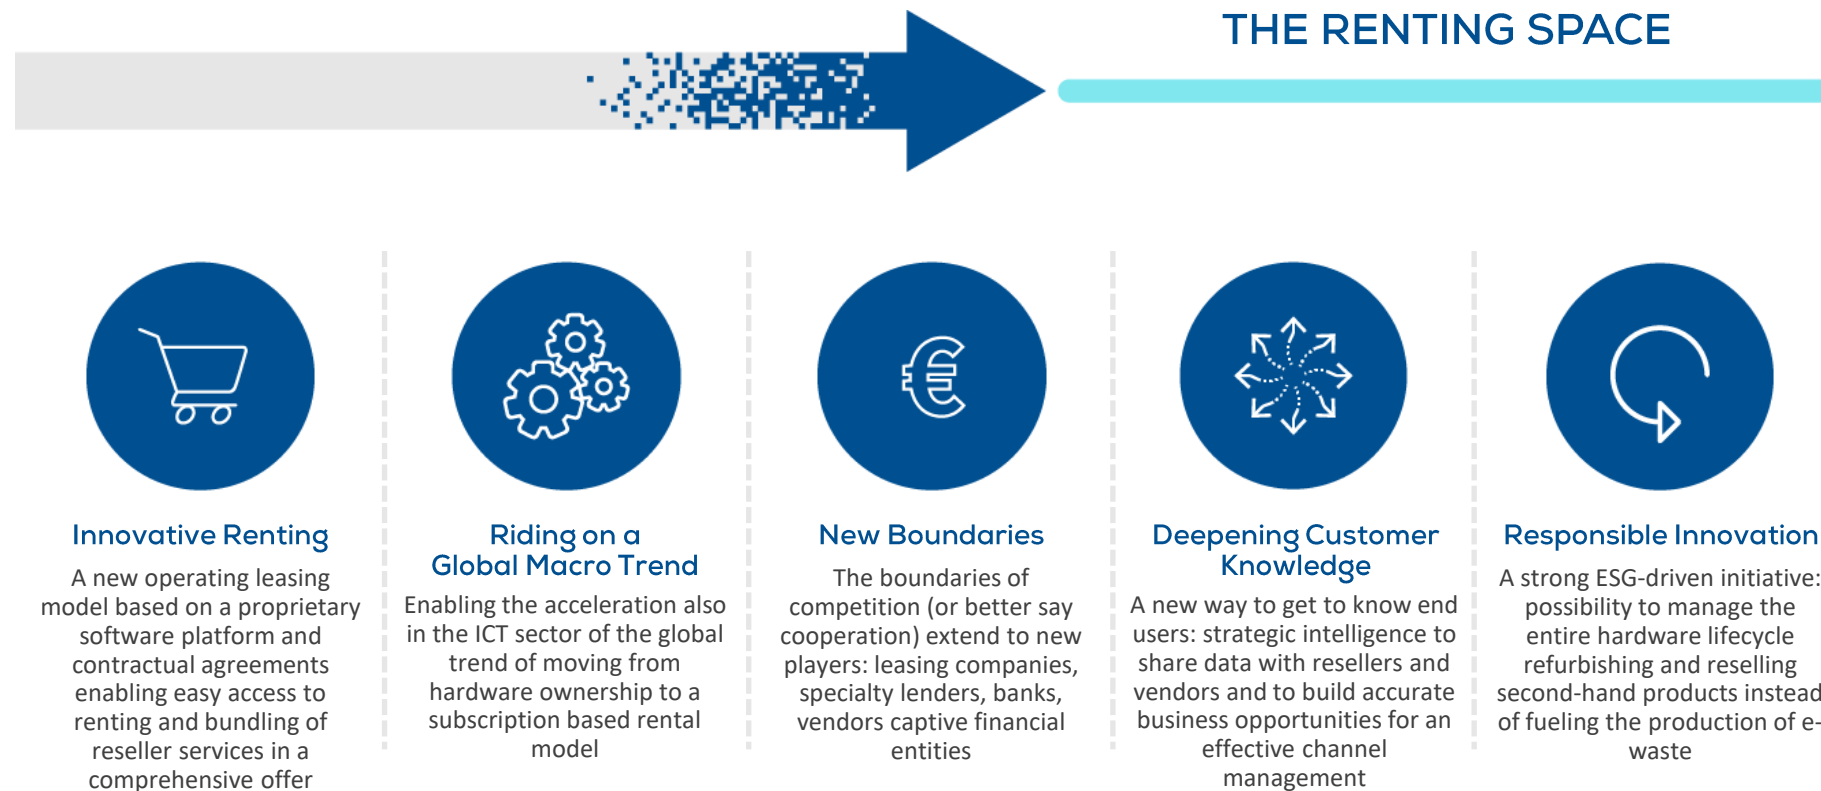

Key Strategic Priorities 2022/24: Entering the Renting Space

PROFIT GOAL 02: ENTERING THE RENTING SPACE

RATIONALE

Our visionary journey, a structural repositioning to grab a further piece of the value embedded in the overall tech value chain with significantly higher long term earnings profile

KPI

Transacted volumes

Key Strategic Priorities 2022/24: Entering the Renting Space

PROFIT GOAL 02: ENTERING THE RENTING SPACE

MODEL	Operating lease agreement signed by Esprinet with the end user, procured by the reseller, and subsequently sold to a financial entity		
CUSTOMER	End user private companies (excluding Government entities and consumers) through IT Resellers, VARs and System Integrators		
PRODUCT	IT Clients, Advanced Solutions and Services (the latter mainly provided by the reseller)		
VALUE PROPOSITION	RESELLER <ul style="list-style-type: none"> instant collection of the margin no issue on revenue recognition no constraints to the product mix in the offer possibility to bundle its services 	ESPRINET <ul style="list-style-type: none"> instant collection of the margin no issue on revenue recognition no constraints to the product mix in the offer flexibility in defining the residual value of the products possibility of refurbishing and reselling end-of-life products end user knowledge to provide further value pools 	FINANCIAL ENTITY <ul style="list-style-type: none"> expansion of the database of end users by leveraging the sales network of resellers of Esprinet converting part of the go-to-market into a variable cost model
INVESTMENT		<ul style="list-style-type: none"> innovative IT platform to run the process entirely online (done) agreements with financial companies (done) organization of the credit department for initial checks (done: further support if needed) hiring of a pool of specialized salespeople (in progress) 	
PROFIT		<ul style="list-style-type: none"> grab a part of the financial margin grab the profit coming from end-of-life mgmt 	
RISK	A disruptive profitability opportunity with a risk profile mostly linked to the creation of a pool of specialized salespeople and credit risk residing only on the residual, and tentatively zero portion of contracts retained on Esprinet accounts		

KPI

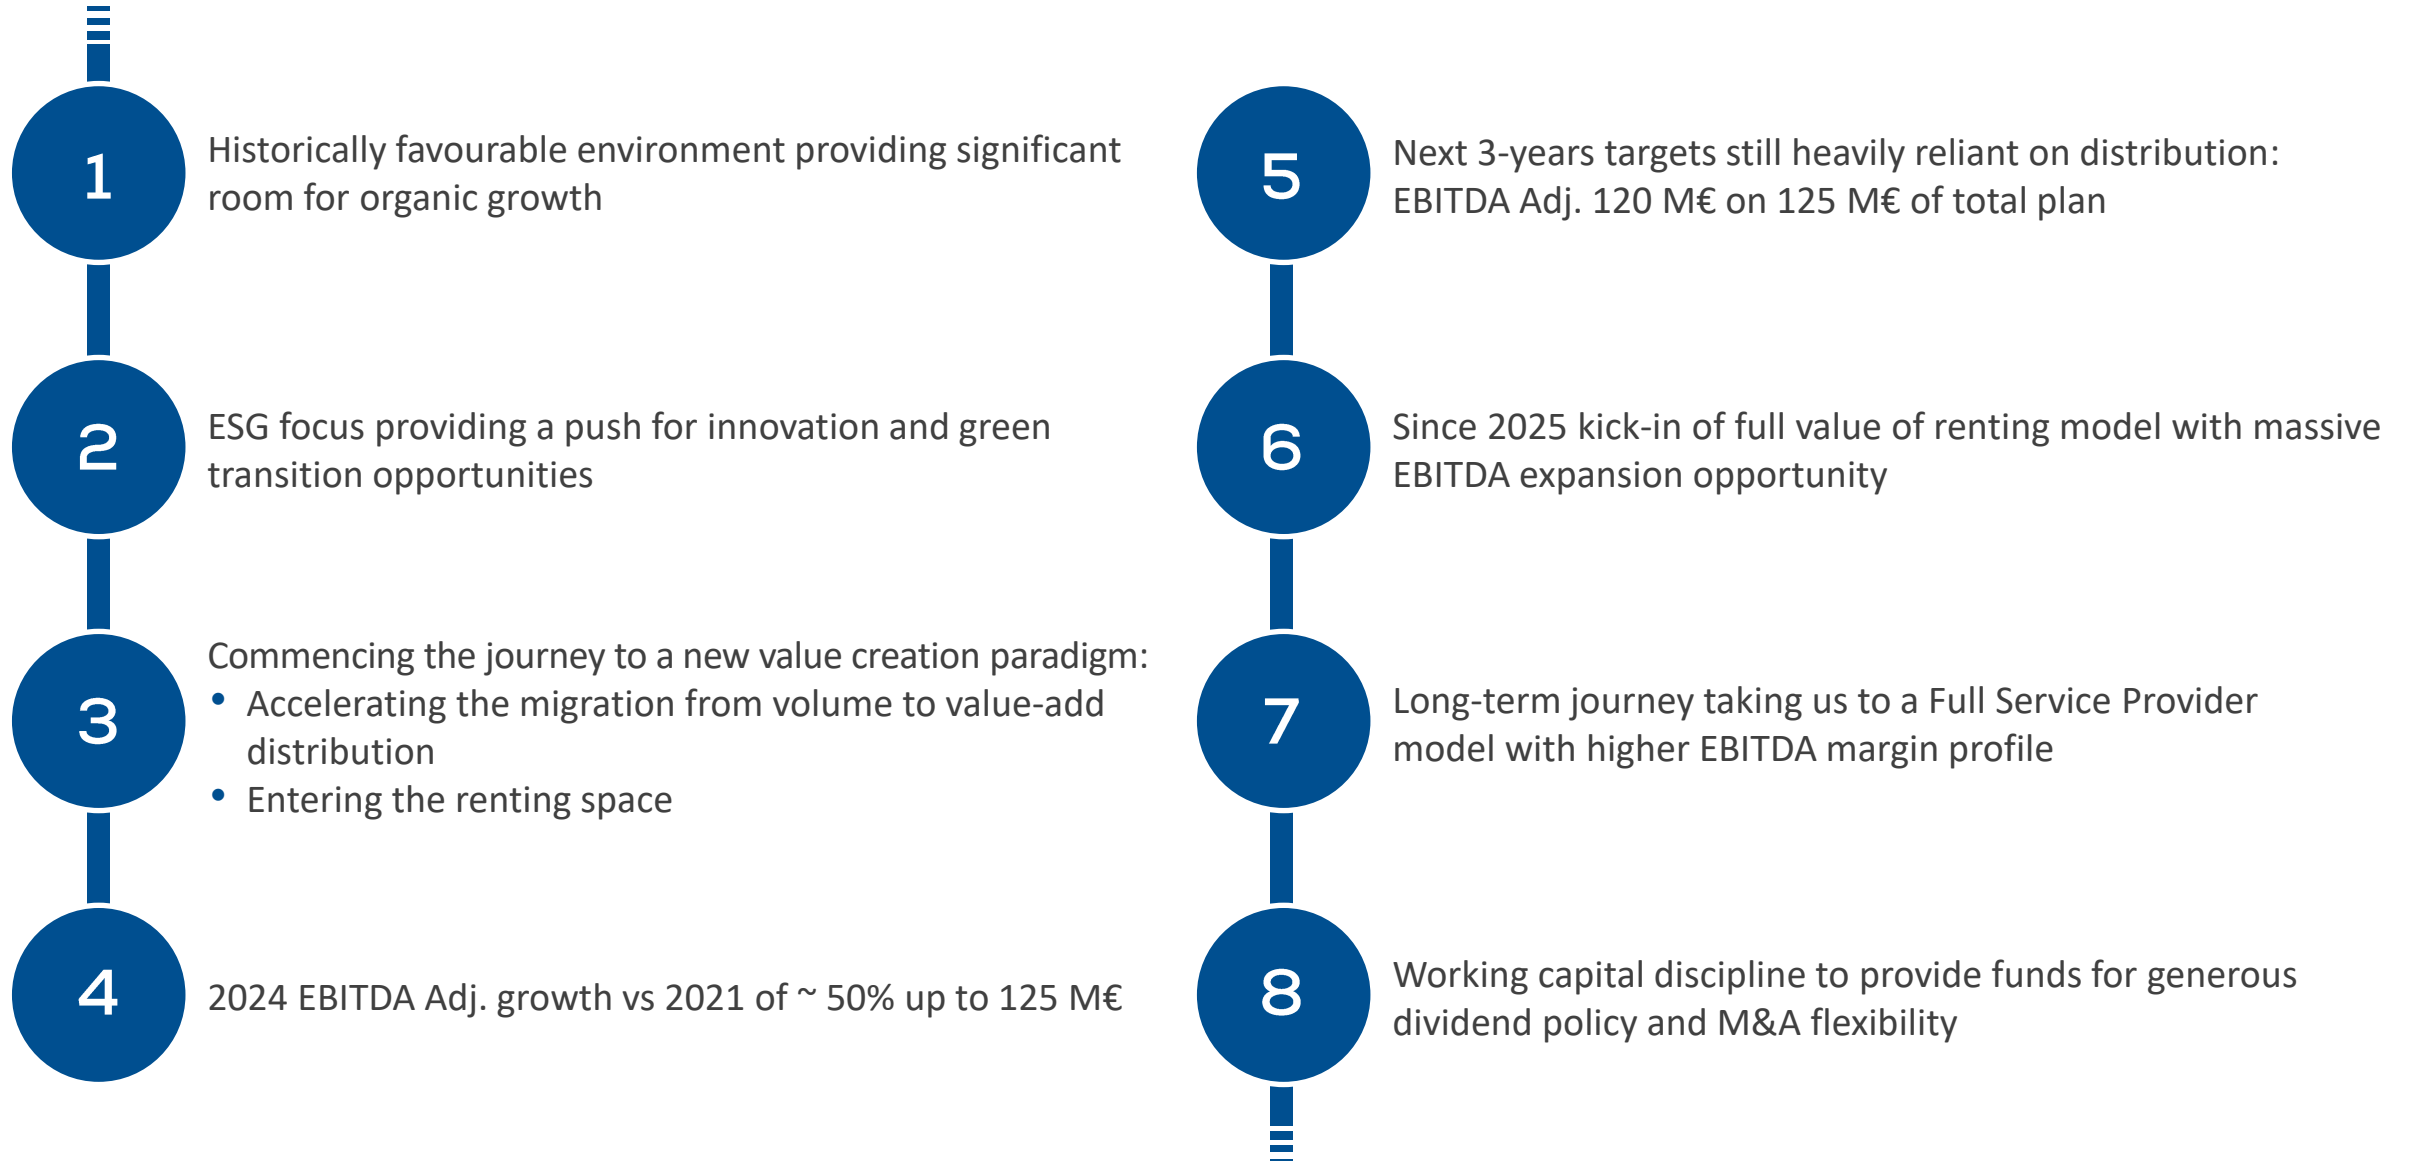

Adj. EBITDA evolution

THE COMPANY & THE INDUSTRY

#1 Ict Distributor In Southern Europe

+20 years in business,
3 geographies:
Italy, Spain & Portugal

A real enabler of the use
of technology for a
sustainable digital society

Strong SMB and
mid-market focus
31k customers

Working to provide
the best customer
satisfaction

The most complete
Tech product range
with 650 brands

MTA listed

Esprinet S.p.a. listed on the
Italian Stock Exchange in 2001

2020 Sales 4.5 B€

Esprinet S.p.a. undisputed market
leader with a strong track record as
a consolidator

Consistent Growth

Historical stable flow of profitability:
472 M€ of cumulated Net Profit and
135 M€ of cumulated dividends
since 2001

1,600 people

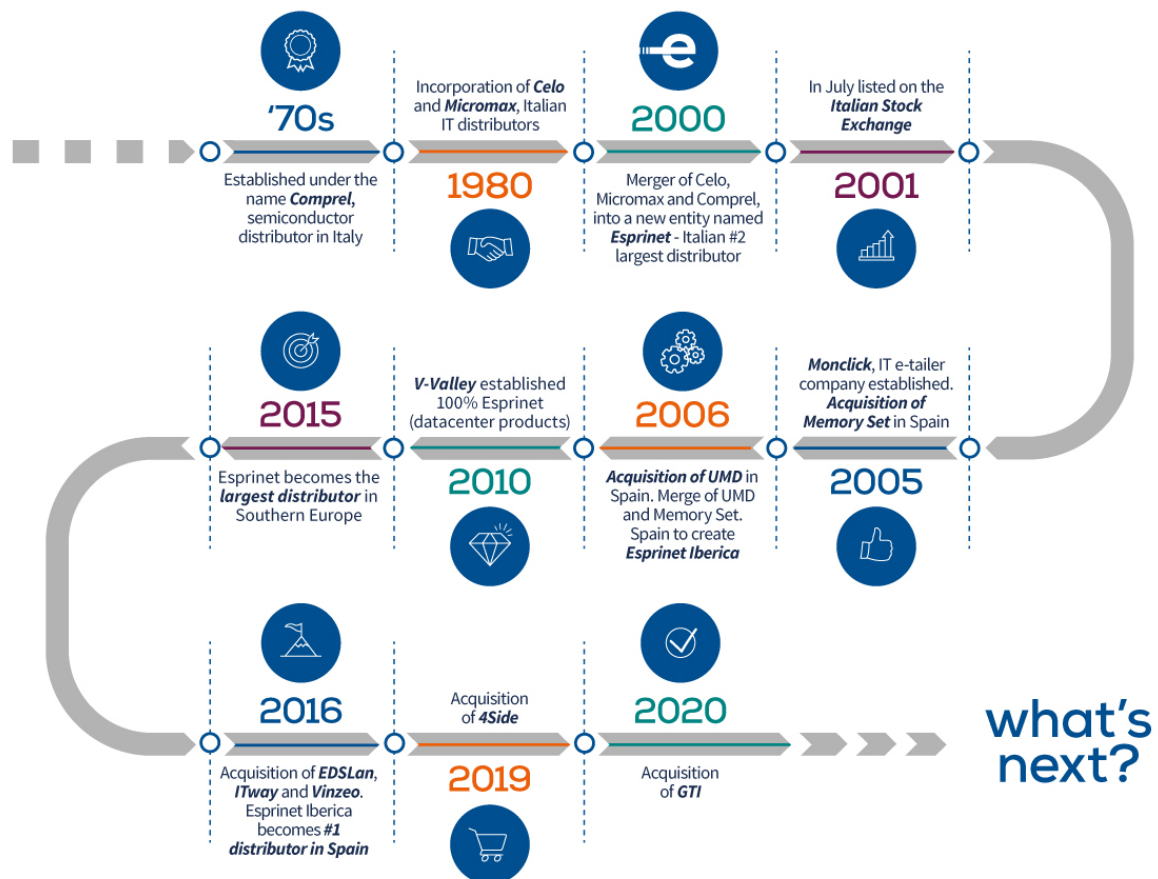

65% sales & marketing
35% back office
54% female
46% male

Strong Capabilities

130,000 SKUs available
Highly efficient logistics
processes and systems
With +155,000 sqm of warehouses

(°) Change in the methodological setting with respect to the previous representations with estimates of coverage of total distribution sales by the Context panel differentiated by product category.

The Evolution Of The Market

ITALY-SPAIN-PORTUGAL: TOTAL ICT SPENDING AND SHARE OF DISTRIBUTORS (EX-WHITE GOODS)

EITO figures for IT Clients - Advanced Solutions & Smartphones - Euromonitor for other Consumer electronics
 End-user consumption converted to distri price assuming average 15% margin for resellers/retailers
 Conversion from Context panel sales to Total distri sales assuming Context Panel represents around 90% of total consolidated distri sales with differences for product categories
 Adjustment applied to Context panel gross sales of 6.5% (from gross revenue to net revenue)
 2021 end user market estimates by EITO & Euromonitor as of November 2020
 2021 distri sales estimated using a flat growth of 5%

ICT Distribution share on total ICT addressable sales grew from 40.0% (2016) to 56.0% (2020) and is forecasted to grow furthermore (60.1% expected in 2021).

The “Why” for Vendors

- Reduction of distribution fixed cost
- Buffering stock
- Credit lines & Credit collection capabilities
- Marketing capability
- Need of an aggregator of their products into complex multi-vendor solutions

The “Why” for Resellers

- Outsourcing of warehousing and shipping on their behalf
- One-stop-information gathering point
- One-stop-shopping opportunity
- Easiness of doing business against dealing directly with vendors
- No minimum quantity needed to be a valued partner

The “Why” for Retailers and E-Tailers

- “Fulfilment deals” with Vendors on top selling items
- Category management for accessories
- Home delivery capabilities for White Goods and Large TVs
- E-Tailers use Distributors as a one-stop-shopping for the “Long Tail” of products

Future

- A similar trend towards a “Distributor Friendly” environment is now under development White Goods
- «As a Service» models will require further more the capability of integrating in a single easy-to-use interface for resellers the Consumption models of multiple vendors

Why A Distributor: high quality assets

Inventory Risk Mitigants

Stock Protection Clause

Provided by the vast majority of Vendors in which they assume the risk of inventory devaluation arising from purchase list price reductions planned by the Vendor itself.

Fulfilment deals stock protection

Vendors might allow the Distributor to purchase products based on a sales forecast agreed upon between the Vendor and the Retailer/Corporate Reseller. Vendors might guarantee the Distributor, either contractually or customarily, that those products will be sold with a predefined margin, essentially shielding the Distributor from the inventory risks that might arise from the need of reducing the sales price or disposing of unsold products.

Stock Rotation Clause

On specific product categories, i.e. software or pre-packaged services, the Distributor is periodically allowed to ship back obsolete stock in exchange of new products of similar value.

Factoring & Credit Insurance Policies

Credit insurance

Large and medium sized distributors routinely apply contracts with top-rated Credit Insurance Companies shielding the risk of default of debtors with deductibles typically between 10% to 15% of the insured value.

Factoring/Securitization programs

Trade receivables might be sold “without-recourse” to factoring entities or conduits of a trade receivables securitization program, typically major commercial banks but sometimes Vendor financing companies as well. When factoring/securitization happens, being a true-sale, no deductibles are involved and the credit risk is entirely transferred to the factoring company.

Risk taking

Sometimes distributors might takes some credit risk on their books by issuing a Credit Limit that exceeds the value of the Credit Insurance coverage.

Credit Notes

The Industry operates with a significant amount of Credit Notes accruals at any given end-period

Vendors routinely operate with commercial programs that envisage significant amounts of price adjustments for multiple reasons such as:

- End-period accruals for target achievements;
- Stock protection;
- Pass through.

Customers as well are entitled to price adjustments such as:

- End-period accruals for target achievements;
- Pass through;
- Co-marketing funds.

Accounting treatment

At any given quarter-end accruals are made to account for the credit notes pending reception from Vendors and credit notes pending issuing to customers.

According to the Group accounting policies periodically, typically at year end, a revision of the old accruals is done and the adjustments booked to the Gross Profit of the period.

Historically, given the accounting policies in place, this effect is positive and contributes to a spike in Gross Profit margins at year end.

Sales Mix & ROCE profile by product

GOVERNANCE

MAKE LIFE EASIER FOR PEOPLE AND FOR ORGANISATIONS

We believe that technology enriches everyone's everyday life, which is why we strive to expand and facilitate its distribution and use.

BE THE KEY POINT OF CONTACT BETWEEN MANUFACTURERS, RESELLERS AND TECHNOLOGY USERS

We want to create value for these key stakeholders, for shareholders and for those who work with us through a strategy of constant, shared growth based on an innovative distribution model.

Maurizio Rota

Maurizio Rota, was born in Milan on 22 December 1957. After early professional experience as Sales Supervisor for companies operating in the Information Technology field, he founded Micromax in 1986, serving as the Company Chairman. He developed and consolidated the company up to 1999, focusing in particular on relations with major manufacturers, and making a decisive contribution to the implementation of the company's business strategies. Following the formation of Esprinet in the year 2000, as a result of the merger of the companies Celio, Micromax and Compel, he served as Managing Director and later as Vice Chairman and Chief Executive Officer. Mr. Rota is the Chairman of the Esprinet Group.

Alessandro Cattani

Alessandro Cattani, was born in Milan on 15 August 1963. After completing his degree in electronic engineering at Politecnico in Milan, he earned a MBA ("CEGA" at the Bocconi University in Milan). He began his professional career in the holding company of an Italian industrial group where, until 1990, he served as Executive Director of the company which had the task of managing the group's information technology. From 1990 to 2000 Mr. Cattani worked in a consulting company. Since November 2000 he has been serving Esprinet as Chief Executive Officer of the Group.

Code of Ethics

The Code of Ethics applies to all activities carried out by or in the name and on the behalf of Esprinet S.p.A. and its subsidiaries.

The Code of Ethics:

- establishes the guidelines of conduct and regulates the set of rights, duties and responsibilities that the Group expressly assumes with its stakeholders;
- defines the ethical criteria adopted for a correct balance between expectations and stakeholder interests;
- contains principles and guidelines for conduct in areas of potential ethical risk.

Code of Conduct

The Esprinet Group wishes to establish trade relations with its vendors and business partners based on transparency, correctness and business ethics. The development of transparent and lasting relationships with vendors, attention to quality, safety and respect for the environment and compliance with existing regulations are objectives to be pursued with a view to consolidating the value created in favour of stakeholders.

Therefore, in connection with the Code of Ethics adopted by Esprinet S.p.A. and its subsidiaries, the Group has defined a Code of Conduct designed to guide relations throughout its supply chain.

"231" Organisation Model

This document, entitled "Organisation and Management Model pursuant to "Legislative Decree 231/2001" (hereinafter called "the Model"), has been drawn up to implement the terms of ss. 6.1.a and 6.1.b, 6.2, 7.2 and 7.3 of Legislative Decree no. 231 of 08.06.2001 (hereinafter called "the Decree").

The Model is the management reference document which institutes a corporate prevention and control system designed to prevent the offences specified in the Decree from being committed.

The Ethical Code enclosed summarizes the values, correctness and loyalty by which the Esprinet Group is inspired and constitutes the base of our Organizational, Administrative and Control Models. The Code has been adopted by the company in order to prevent any occupational hazards or risks in view of the D. Lgs. 231/2001 law.

On April 15th, 2020 the companies Board of Directors accepted a new and updated version of the Organizational, Administrative and Control Models which substitutes the previous version approved on September 11th, 2018.
